

Magnetic Sensor

No Power

Battery Saving

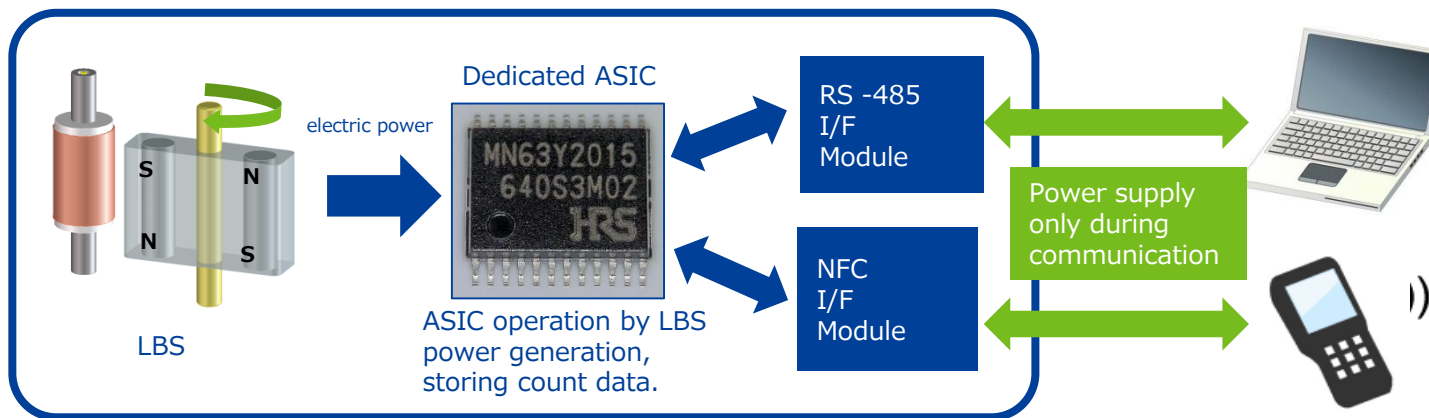

☆Operation by Alternating Magnetic Field Application

*Configuration diagram of the principle

Features

- 1 Applied large Barkhausen effect element
- 2 Zero Standby Power / No Power Wiring
- 3 The output voltage pulse is independent of the object velocity
- 4 Ultra-Low torque
- 5 Can use in high temperature environments (up to 200°C)

Application Example

Shape Example

Free power source rotation counter
